although master tung s acupuncture has been in the public domain since his untimely passing in 1975 very little information is available publicly on how to use the system in a practical and systematic way in english in this book i hope to guide my fellow

colleagues into the intricacies of applying master tung acupuncture in the clinic since i am also a practicing acupuncturist and deal with pain women s health and internal medicine problems quite frequently i am sharing my clinical experience in this book and the secret of creating the protocols that i use daily with modification i also attempt to explain why i choose a particular protocol and the modification to it in this book i introduce what i consider the best of master tung s acupuncture there are many books on master tung s acupuncture which introduce all of the 740 tung family points but often these books may be too much for the beginner and do not let the beginner grasp useful concepts or how to use master tung s acupuncture immediately and effectively most acupuncturists simply add the tung points to their already memorized tcm acupuncture point prescriptions and as a result make a mess out of their acupuncture they do not have a simple and elegant rationale for using the system in my teaching of master tung s acupuncture i always choose points that are painless easily accessible and have powerful immediate results

in this book i use a lot of standard acupuncture points along with master tung s acupuncture and emphasize the use of channels and imaging for optimal clinical use if a practitioner can use this work they can have a turnkey approach in the clinic simply by implementing these acupuncture and herbal protocols the idea is for each disease i have installed cheat sheets for the practitioner to immediately refer to and try to insert needles and prescribe herbs for the fifth in the series of master tung s acupuncture books the idea is for someone to start with the master tung s primer the best of master tung s acupuncture master tung s acupuncture for pain and master tung s acupuncture for internal medicine disorders with this manual we will discuss the use of master tung s acupuncture with herbals for even greater clinical success the book is composed of monographs on each disease best points to treat the problem and high percentage success herbal prescriptions to give the patient as homework unique is that we only use a handful of both tcm and master tung points and a small amount of herbal formulas for a turnkey approach to a clinic this can be used as a roadmap for the new clinician improve clinical success for the intermediate practitioner or provide an alternative approach for the seasoned veteran

colleagues into the intricacies of applying master tung acupuncture in the clinic since i am also a practicing acupuncturist and deal with internal medicine problems quite frequently i wrote these based on the protocols that i use daily each of these protocols has been personally used by me one time or another in the clinic many of these are also the same protocols i used when i work daily in my private clinic since i am a visual person and i like things in a simple manner i have placed the pictures of the points indicated for the various ailments together to make it as simple as possible for the practicing acupuncturist to use in his or her clinic i dislike overly drawn out discussions on theory but prefer that application be one s guide i also dislike secrecy so i hold back no alleged secrets from anyone who wants to learn the real art my goal is to help end suffering in the world and help english speaking acupuncturists improve their proficiency through the vehicle of master tung s acupuncture
